### MEETING GOAL

This AtlantOS Ocean Hour will revitalize the importance of implementing the AtlantOS program. We will provide the observing community and all interested stakeholders with an update on our recent activities and plans for 2021 and onwards and get first impressions by some stakeholders.

### UPCOMING OCEAN HOUR

March 09th, 2021  
“Glider Network - Basin Scale Implementation”

### OVERALL AIM

The Ocean Hour will provide an opportunity for community engagement as we develop the All-Atlantic Ocean Observing System. We will share ideas, progress in specific topics, use cases, projects, programs, and address issues in developing e.g. communities of practice.

### PROGRAMME
